(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including
estimated date of starting any proposed work. If well is directionally drilled give subsurface locations and measured
and true vertical depths for all markers and zones pertinent to this work.)

This well was originally planned to be re-entered and completed in the Abo formation, but the
depressed gas market and the lack of a gas contract for this well have necessitated postponing this
project for an indefinite period of time. Therefore, we respectfully request that this location be
placed on a temporarily abandoned status for one year.

To restrict traffic across the Bosque Draw crossing, a barrier will be constructed across the road on
the north side of the draw and a "closed road" sign placed at the turnoff at the West Haystack
Federal #2. To help prevent erosion at the Bosque Draw crossing, sufficient diversion will be pro-
vided to prevent water from running down the road.

I hereby certify that the foregoing is true and correct

SIGNED

B. J. Hobbs
