Well #1 P-36-9-28  
Chaves County, New Mexico

Dear Mr. Graham:

Since the last report on this well we have been testing on pump. The well has averaged two (2) bbls of oil per day with traces of frac water. All the frac has not yet been recovered. Casing head gas is estimated at 25,000 to 50,000 cu. ft./day.

Very truly yours,

Clara Talbert
