Gentlemen:

As of November 1, 1977, we have not received Form C-105. We did receive Form C-103, but it does not match with our records. The plug that you tagged at 1,116' was at 1,396'. We re-spotted a 35 sack plug at 1,116' and tagged 1 1/2 hours later at 1,110'. Could you please make this correction on the C-103.

A recent inspection of November 1, 1977, of the location, shows you need to cover the pit and cellar, remove the dead-men and clean the location before we will be able to release your plugging bond on this well.

Sincerely yours,

A handwritten signature in cursive script that reads "Mike B. Williams".
