County, NM

Gentlemen:

We are returning the enclosed Forms C-105 on the subject well for corrections and additional information.

On line #24 you show the producing formation to be Strawn, however, according to the Formation tops listed on the back side it would be Missippian. Please check all of the tops and supply the additional information as required on the attached memo.

A small supply of the revised forms are being sent under separate cover.

If you have any questions concerning this matter please feel free to call me.

Sincerely yours,

A handwritten signature in cursive script that reads "W. A. Gressett".

W. A. Gressett  
Supervisor, District II
