Re: Cannon Fee  
#2-A, 17-10-25  
Chaves County, NM

Gentlemen:

On a recent inspection of the subject well we found the following:

According to personnel on the rig, the well was drilled to a total depth of 450' where some tools were lost, the hole was plugged and the rig skidded approximately 30' west where another hole was drilled to 85' and the rig was shut down for repairs.

To date this office has not been contacted or furnished any details as to the problems encountered or how the hole was plugged.

Failure to contact this office immediately and furnish all of the required information will result in this matter being referred to our attorney for legal action.

Sincerely yours,

A handwritten signature in cursive script, reading "W. A. Gressett".

W. A. Gressett  
Supervisor, District II
