Chaves County, New Mexico

Gentlemen:

Yates Petroleum Corporation is hereby submitting application for produced water from the above captioned wells pursuant to NTL-2B, Section II, and requests your approval.

The four (4) wells are gas wells and produce no water. Yates' field foreman, David Weaver, reports that there is on each location a 210-barrel fiberglass tank for water storage. If the wells produce water, the water will be transported to the Federal HJ #1, an approved disposal by NMOCD Order No. R-5545.
A 31-63-26E

If additional information is needed, please advise.

Yours truly,

Juanita Goodlett
Production Supervisor
