Chaves Co., N. M.

Dear Mr. Gressett:

Enclosed for your approval is an original and four (4) copies of the Revised Form C-104 requesting a new test allowable during March, 1982, for the above-referenced well.

Recently, we raised the bottomhole pump to a shallower depth and currently are pump testing the well.

February production is 469 BO and 7261 BW. Cumulative production is 3406 BO and 16,271 BW. Thank you for your help.

Very truly yours,

HARPER OIL COMPANY
