RE: Denton-Federal #1  
Sec. 24-5S-27E  
Chaves Co., New Mexico

Dear Mr. Gressett:

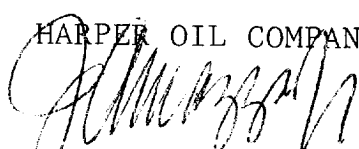

Per your telephone conversation with Mike Maly, enclosed is an original and four (4) copies of the Revised Form C-104 requesting a Test Allowable during February, 1982, for the above-referenced well.

On January 29th, we finished running a larger bottomhole pump and a tapered tubing string. Currently, we are pump testing the well to see if we were successful in stabilizing the oil production.

To date the well has produced a total of 2937 BO and 9010 BW. Thank you for your help.

Very truly yours,

HARPER OIL COMPANY

  
J. A. Mazza, Jr.  
Production Manager
