RE: Denton-Federal #1
Section 24-5S-27E
Chaves Co., New Mexico

Dear Mr. Gressett:

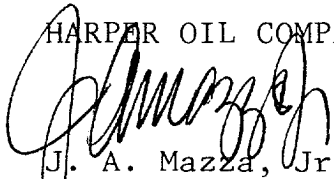

Enclosed please find a Revised Form C-104 requesting a test allowable during January, 1982, for the above-referenced well.

Due to erratic production from this well, we have been unable to get accurate test information. Currently we are pump testing the well and plan to make mechanical changes to try and stabilize the production. To date the well has produced a total of 2170 BO and 3712 BW.

Although testing allowables are not normally approved for more than one month, we respectfully ask your approval of our request.

Please call if there are any further questions.

Very truly yours,

HARPER OIL COMPANY

J. A. Mazza, Jr.
Production Manager
