13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Due to economic conditions, the gas purchaser required Mesa (Yates) to lay a gathering line from the Lodewick Federal Com #4 to the Lodewick Federal Com #1. Therefore, Yates Petroleum Corporation respectfully requests approval for surface commingling for the Lodewick Federal Com #1 and #4 and off-lease sales and measurement for the Lodewick Federal Com #4. Locations are as follows:

Lodewick Federal Com #1 (RNM097), NWSE of Section 8-T5S-R25E, Chaves Co., NM  
Lodewick Federal Com #4 (RNM098), SWNE of Section 8-T5S-R25E, Chaves Co., NM

The Lodewick Federal Com #4 has its own allocation meter. The production for the Lodewick Federal Com #1 is figured by taking the #4's production and subtracting this volume from the CDP meter (No. 20500). The CDP meter is located at the Lodewick Federal Com #1, NWSE of Section 8-T5S-R25E, Chaves County, New Mexico.

Periodic meter calibrations are done on all meters and will be furnished to the BLM upon request.

14. I hereby certify that the foregoing is true and correct

Signed
