

E. Drainage Design: None

F. Culverts: None

G. Cuts and Fills: None

H. Gates and Cattle Guards: There are 3 existing gates on the way to the proposed location. They will be replaced by cattle guards. (Gates shown on Exhibit "C").

3. LOCATION OF EXISTING WELLS

There are no existing operating wells within one mile of proposed site.

4. LOCATION OF EXISTING AND/OR PROPOSED FACILITIES

A. This lease is undeveloped and there are no existing facilities on this lease.

B. If the well is a producer, the tank battery and flow line will be located on the well pad and no additional surface damage will be necessary.

5. LOCATION AND TYPE WATER SUPPLY

Water will be hauled to location over road shown.

6. LOCATION OF CONSTRUCTION MATERIALS

Caliche will be obtained at a developed private pit in section 25-10S-28E as shown on Exhibit "C".

7. METHODS OF HANDLING WATER DISPOSAL

A. Drill cuttings will be disposed of in the drilling pits.

B. Drilling fluids will be allowed to evaporate in the drilling pits until pits are dry.

C. Water produced while drilling will be disposed of in drilling pits.

D. Current laws and regulations pertaining to the disposal of human waste will be complied with.

E. Trash, waste paper, garbage and junk will be buried in a separate trash pit and covered with a minimum of 24 inches of dirt. All waste material will be contained to prevent scattering by the wind.
