Re: Clements Energy, Inc.
King 35 Com. No. 1 Well
Section 35, T-14S, R-26E
Chaves County, New Mexico

Gentlemen:

Enclosed, please find duplicate copies of Form C-122 containing the results of the initial potential test ran on November 26, 1982, on the above referenced gas well. Copies of the gas sample analysis, flowing and static gradient surveys, and subsurface pressure measurements recorded during the four point test and build up are also included.

It is requested, in consideration of the fact that no liquids were produced during the testing of this well, that Administrative Order TX-95 remain in effect on the subject well.

Should you have any questions regarding this matter, please feel free to contact us.

Yours very truly,

R. E. Harris
Petroleum Engineer
