RE: Request Administrative Approval
Unorthodox Location
Sanders Petroleum Corporation
Isler Federal #3
Sec. 6, T7S, R27E
Chaves County, New Mexico

Gentlemen:

We request administrative approval for unorthodox location of the captioned well, moved 20 feet East and 70 feet South of original location (1980' FNL & FEL), to the following location:

2050' FNL & 1960' FEL

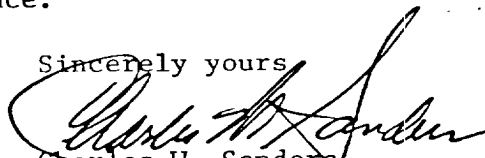

The location was moved because of excessive slope on the north side and in order to minimize cut and to enable circulating the reserve pit. Well has been drilled and 4-1/2" casing cemented. Completion procedure has not yet begun.

Attachments Include:

1. "Sundry Notice" requesting USGS approval of change, with survey plat and location layout plat.
2. Topographic plat showing rugosity of land surface in the area.
3. Lease ownership and well location plat.
4. List of offset operators or lease holders.
5. Copy of notification letter to offset operators.
6. Registered mail receipts of notice to offset operators.

Thank you for your assistance.

Sincerely yours

Charles W. Sanders
President

CWS/ps
