Re: Off Lease Approval
Dale Fed. #12
660'FNL & 660'FWL
Section 27: NW/4
T-7-S, R-27-E
Chaves County, New Mexico

Gentlemen:

McKay Oil Corporation has hooked up the captioned well. We have contracted the Land & Resources Department of the BLM and Transwestern Pipeline Company and it was decided that the Meter Run should be located in Section 21: SE/4, T-7-S, R-26-E, NMPM at Transwestern's P.I. Station 0+00. The off lease measurement project is as follows:

1. A plat showing the proposed pipeline route and Meter Run location is attached.
2. A plat showing the lease number and location of the gas well, producing from the Abo formation, that is connected to the proposed off-lease facility is attached.
3. A schematic diagram which locates and identifies the equipment utilized is attached.
4. An estimated 400 mcf of gas per day is expected to flow through this pipeline and meter run.
5. The production shall be measured by a Transwestern Pipeline meter run and will be checked once per day by and independent pumping service.

Therefore, McKay Oil Corporation is requesting an off lease approval for hookup of this well. We would appreciate your approval at your earliest convenience. Thank you.

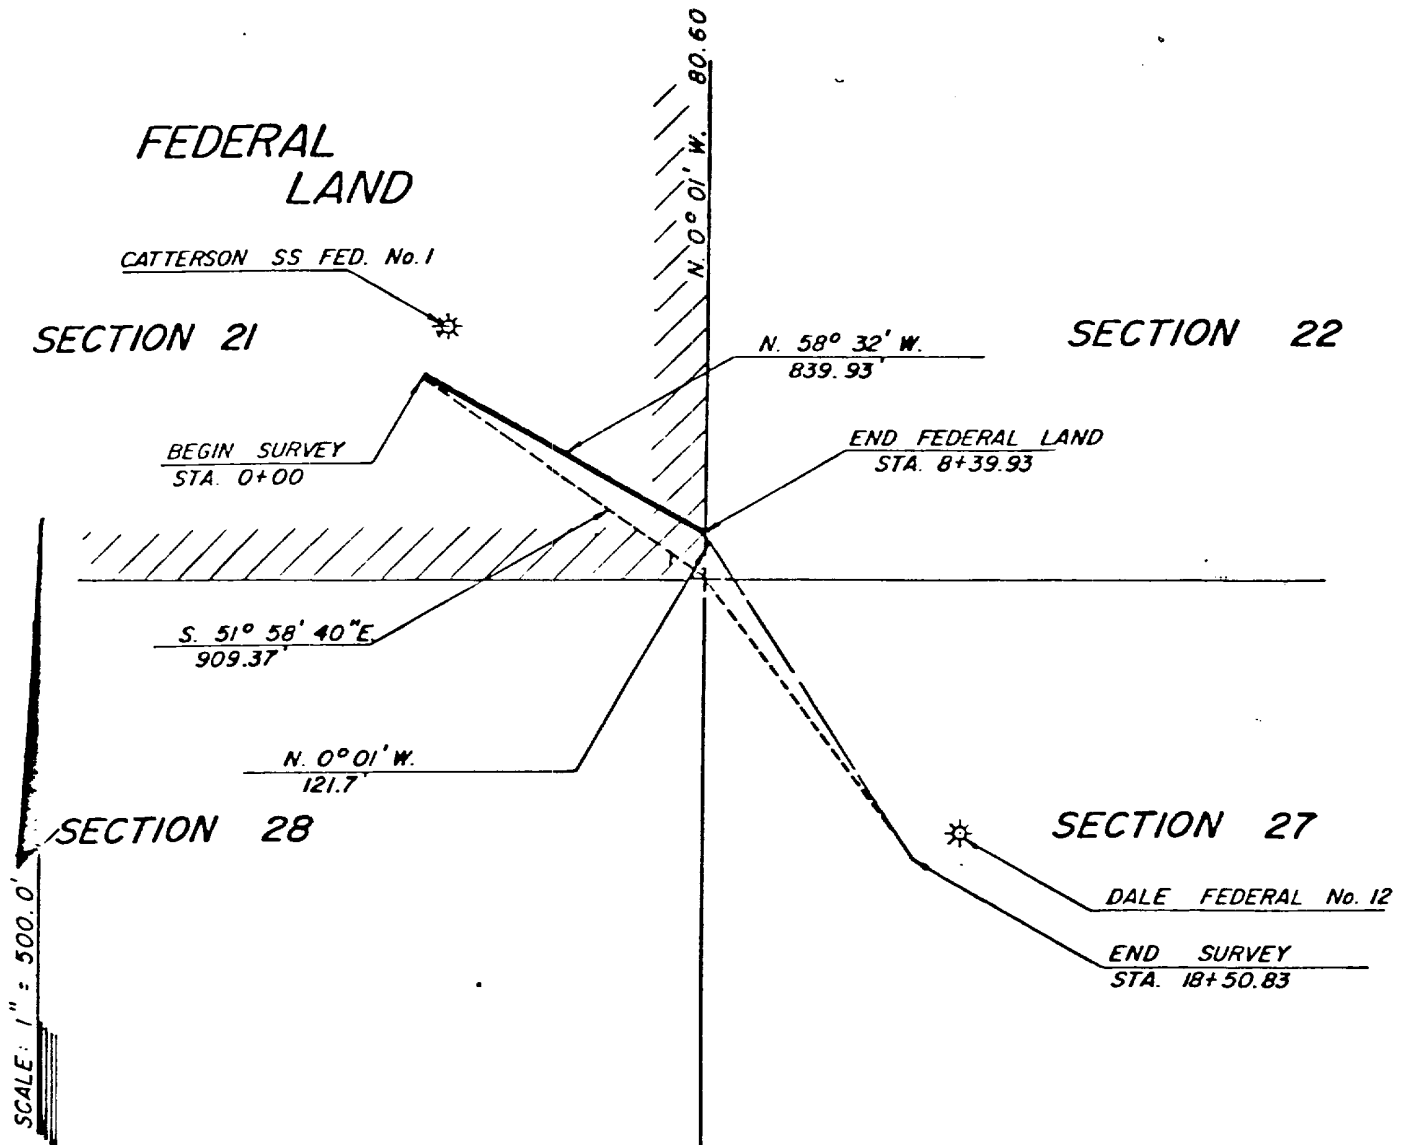

Very truly yours,
MCKAY OIL CORPORATION
