

Jim Gillham
District Supervisor ✓
Dept. of the Interior
P.O. Drawer 1857

Dear Jim:

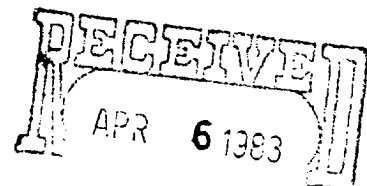

We wish to co-mingle the Gas from the Lodewick Fed. Com. #4 Well with the Gas from the Lodewick Fed. Com. #1 before it is metered by Transwestern on the Lodewick Fed. Com. #1 location.

We will set one of Mesa Petroleum's meters (Barton Flow Meter w/1000 spring) at the location, also Gas samples are taken from each Well. These meter runs meter the Gas before it leaves the lease but the point of sale to Transwestern is at their meter on the Lodewick Fed. Com. #1 location (see attached map).

If you have further questions please call.

Sincerely yours,

Lloyd Reed
