(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Due to economic conditions, the gas purchaser has required Yates Petroleum Corporation to lay a pipeline from the captioned well off-lease to another location. We hereby request approval for off-lease sales for the captioned well.

The meter house for the captioned well is located at the Papalote OI State #1 location, located in the NENE of Section 16-T7S-R25E, Chaves County, New Mexico. The number of the measurement station is 20860 for the Albitus TH Federal #1. THESE WELLS ARE NOT COMMINGLED.

Attached is a site security diagram showing the Papalote OI State #1 location and the location of the different meter houses that set on this location and how each lines comes in to the various meterhouses. Also attached is a map showing the location of the various wells (3) that comes into the Papalote OI State #1 location. NOTE: NONE OF THESE WELLS ARE COMMINGLED TOGETHER.

Transwestern Pipeline Company conducts periodic tests on their meters and semi-annual gas analysis test. Test results will be furnished to the BLM upon request.

14. I hereby certify that the foregoing is true and correct
