(NOTE: Report results of multiple completion or zone change on Form 9-330.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

4 1/2" casing collapsed and parted at 2544'--recovered 2520' 4 1/2" casing.
Not able to get back inside 4 1/2 casing.

Per verbal agreement with George Stewart, will plug back to bottom of San Andres, run 4 1/2" casing to top of plug at 1450', cement 4 1/2" to surface and complete as San Andres oil well.

1st Plug: 80 sxs Class "C" cement + 2% CaCl₂ from 2520 to 2420--cover top of 4 1/2".

2nd Plug: 70 sxs Class "C" cement + 2% CaCl₂ from 1650 to 1450--cover top of Glorieta.

ROSWELL, NEW MEXICO

Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; mud or other material placed below, between and above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.

Cement 4 1/2 casing from 1450' to surface using 100 sxs
Hallco Lite plus tail-in with 200 sxs Class H + additives.

Attached is a re-dedication plat for 40-acre spacing
for San Andres oil well.

MEXICO OIL CONSERVATION COMMISSION
WELL LOCATION AND ACREAGE DEDICATION PLAT

Form
Supersedes Form
1-1-77

All distances must be from the outer boundaries of the Section.

Stevens Operating Company			Paul Hicks Fed.			Area 2		
A	13	8 South	25 East	Chaves				
660 feet from the north			660 feet from the east					
3563.0'			Abo			Wildcat		
						40		

Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.

- If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
- If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

Yes ☐ No ☒ If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, force-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

CERTIFICATION

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief.

Pat Thompson

Production Coordinator

STEVENS OPERATING CORPORATION

November 30, 1982

I hereby certify that the well location shown on this plat was plotted from field notes of actual surveys made by me or under my supervision, and that the same is true and correct to the best of my knowledge and belief.
