Wildcat Pennsylvanian

Dear Mr. Vidrine:

We acknowledge receipt of your C-104 dated June 13, 1983 requesting an allowable for the above captioned well. However, before an allowable can be assigned to this well you will have to apply through Santa Fe for a non-standard location approval.

Your original intent was for an oil well, and it only needed a forty acre dedication and was a standard location. When it was changed to a gas well and 320 acres had to be dedicated, the rules governing the location of gas wells made the location of this well non-standard.

Attached are copies of the rules and regulations and what must be filed in order to obtain a non-standard location approval. Until we receive the approval from Santa Fe, an allowable cannot be given to this well.

Very truly yours,

  
Leslie A. Clements
