Re: Chaves A Fed #1 & #3  
B,D-21-7-26

Attention: Jan Stevenson, Proration

In October of 1988 the subject wells were exempted temporarily from running the annual packer leakage test, due to arsenic poisoning in the gas.

Please advise this office as to the current status of the wells. If they have been returned to producing status, a packer leakage test needs to be run at your earliest convenience.

Please notify this office 24 hours prior to the tests.

Thank you,

A handwritten signature in cursive script that reads "Mike Williams".

Mike Williams  
Supervisor, District II
