RE: Production Limitation
Jack Grynberg and Associates
Trout Well #1
Section 29, T 5 S - R 24 E
Chaves County, New Mexico

Dear Bill:

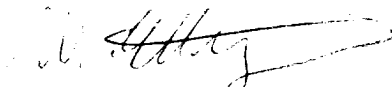

On August 2, 1982 I sent to you form number C-122-C and the four-point test performed on July 19, 1982 on the above well.

I have received the Oil Conservation Division Order No. R-6935-A, Case Number 7496 De Novo dated 7/29/82. Based on the above ruling, the limitation factor was changed to 0.76.

Since the deliverability rate was determined to be 1,313.7 MCFGPD, the production rate from the above well is limited to 76% or 998 MCFGPD.

Should you have any questions or if we should file any other forms, please advise.

Very truly yours,

Morris Ettinger
Exploration Manager
