PROPOSED CASING AND CEMENT PROGRAM

| SIZE OF HOLE | SIZE OF CASING | WEIGHT PER FOOT | SETTING DEPTH | SACKS OF CEMENT | EST. TOP  |
|--------------|----------------|-----------------|---------------|-----------------|-----------|
| 10"          | 8 5/8"         | 20#             | 300           | 200             | Circulate |
| 8"           | 4 1/2"         | 9.5#            | 2360          | 125             | 1800      |

We propose to drill a 10" hole to 300 feet and set 8 5/8" 20# casing. We will cement with 200 sacks Class "C" Cement sufficient to circulate to surface then wait on cement for 18 hours. We then propose to drill an 8" hole to TD. We will run CNL-DLL then decide on casing program after reviewing logs.

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☒ No If answer is "yes," type of consolidation \_\_\_\_\_

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) All leases held by operator and participating parties

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.
