13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 day following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

McKay Oil Corporation intends to construct a temporary 3" poly pipe low pressure flow line to connect the Dale Federal #14 to the Dale Federal #12. This line will allow for compression of the 2 wells and is for test purposes at this time. This line will run along the east side of the existing road from the Dale Federal #14 to the Dale Federal #12. The line will be on the surface 15' from the right edge of the road.
