17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

Due to economic conditions with gas purchaser, Yates Petroleum Corporation has been required to lay gathering lines and set allocation meters at each well that produces into a common line. We request approval to commingle the following wells:

Salt Grass WS Federal #1, located NE/SE, Sec. 26-T14S-R27E

Long Arroyo MQ Federal #2, located NE/NE, Sec. 26-T14S-R27E

The gas is measured prior to measurement for sales for marketing gas to the pipeline company. The sales point is located at Yates' Long Arroyo MQ Fed. #1, SE/NW, Sec. 25-T14S-R27E.

Yates Petroleum Corporation conducts quarterly calibration tests on all meters. Test results will be furnished to the Bureau of Land Management upon request.

Transwestern Pipeline Company conducts quarterly tests on TW's meters and semi-annual gas analysis tests.

18. I hereby certify that the foregoing is true and correct
