17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Due to economic conditions with gas purchaser, Yates Petroleum Corporation has been required to lay gathering lines and set allocation meters at each well that produces into a common line. We request approval to commingle the following wells:

Huckaby TJ Federal #1, located SW/SW, Sec. 18-T8S-R26E

Huckaby TJ Federal #2, located NW/NW, Sec. 19-T8S-R26E

Huckaby TJ Federal #3, located SW/NE, Sec. 19-T8S-R26E

The gas is measured prior to measurement for sales for marketing gas to the pipeline company. The sales point is located at the Kershaw UE #1, NE/SE, Sec. 19-8S-26E.

Yates Petroleum Corporation conducts quarterly calibration tests on all meters. Test results will be furnished to the Bureau of Land Management upon request.

Transwestern Pipeline Company conducts quarterly tests on TW's meters and semi-annual gas analysis tests.

18. I hereby certify that the foregoing is true and correct
