Und. Abo

Gentlemen:

According to Division Rule 401, all gas wells must be tested in accordance with the Division "Manual for Back Pressure Testing of Natural Gas Wells", and reported on forms prescribed by the Division within 60 days after (1) the date of the initial connection of a well and (2) the date of reconnection following workover.

You have twice been requested to send us the required 4-point test on the above captioned well, and twice you have ignored our request.

Therefore, this well is shut-in until such time as you comply with Division Rule 401.

Very truly yours,

Leslie A. Clements
Leslie A. Clements
