Wildcat Abo

Gentlemen:

We acknowledge receipt of your C-103's regarding the drilling of the above captioned well.

However, we are returning them so that you may include the following needed information:

1. on the 13 3/8" surface casing you need to show the casing weight, the WOC (waiting on cement) time, and the casing test - time and pressure;
2. on the 8 5/8" intermediate casing show the WOC time and the casing test - time and pressure;
3. on the 4 1/2" production casing show the WOC time and the casing test - time and pressure;

all as outlined in Division Rule 107.

You also need to include the perforations in your report dated March 3, 1983.

Finally, we will need the original and four (4) copies of a duly notarized Deviation Survey on this well.

Very truly yours,

Leslie A. Clements
Supervisor District II
