(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This Gas well produces approximately 1 3/4 barrels of water per day. The water is stored in a tank on location until enough is saved to make a full transport load. The produced water is then hauled off location by Jims Water Service. Jims Water Service hauls the water to the Loco Hills Salt Water Disposal which operates under New Mexico permit # R-3221.

This notice is submitted pursuant to "Notice to Lessees and Operators of Federal and Indian Oil and Gas Leases (NTL-2B)" dated Jan. 1, 1976.

18. I hereby certify that the foregoing is true and correct
