

9. WELLSITE LAYOUT:

- A. Exhibit C shows the relative location and dimensions of the well pad, the reserve pits, the location of the drilling equipment, rig orientation and access road approach. A profile sheet of the pad is Exhibit E.
- B. The reserve pits will be plastic lined.
- C. A 400' X 400' area has been staked and flagged.
- D. Top 4" of topsoil will be stock piled on the Northeast corner of the location.

10. PLANS FOR RESTORATION OF THE SURFACE:

- A. After finishing drilling and/or completion operations, all equipment and other material not needed for further operations will be removed. The location will be cleaned of all trash and junk to leave the wellsite in as aesthetically pleasing a condition as possible.
- B. Unguarded pits, if any, containing fluids will be fenced until they have dried and been levelled.
- C. If the proposed well is non-productive, all rehabilitation and/or vegetation requirements of Bureau of Land Management will be complied with and will be accomplished as expeditiously as possible. All pits will be filled level within 90 days after abandonment.

11. SURFACE OWNERSHIP:

- A. The wellsite and access road is on federal surface administered by Bureau of Land Management.

12. OTHER INFORMATION:

- A. Topography: Refer to the archaeological report for a description of the topography, flora, fauna, soil characteristics, dwellings, historical and cultural sites.
- B. Waterways: None - Five Mile Draw is due south approximately 3000'.

13. OPERATOR'S REPRESENTATIVE:

- A. Through A.P.D. Approval:

Clifton R. May, Permit Agent
Yates Petroleum Corporation
105 South Fourth Street
Artesia, New Mexico 88210
Phone (505)748-1471

- B. Through Drilling Operations, Completions and Production:

Al Springer, Drilling Superintendent
Yates Petroleum Corporation
105 South Fourth Street
Artesia, New Mexico 88210
Phone (505)748-1471
