17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Yates Petroleum Corporation requests that due to the problem with our late unit approval and the timing of our unit approval (which should be this afternoon) that we would like to spud the well with a rathole machine and set conductor pipe. We could not have a drilling rig commitment without approval of the location or unit and the short timing of this project. Yates will then build the location and move a rig on the location all within two or three weeks from today.

18. I hereby certify that the foregoing is true and correct
