17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Yates Petroleum Corporation wishes to amend the surface use plan to include a natural gas pipeline of 2" ID or 2 3/8" ID steel. Due to the rocky condition, we request that we be allowed to lay it on the surface. It is located in a remote area and should be very little traffic in the area. It will be approximately 2500' in length from the well pad to Transwestern's tie-in point. It will cross the SW/4NE/4 and W/2SE/4 of Sec. 1-T8S-R21E and all be on lease. There will be one road crossing. It will be buried and cased at the crossing. An archaeological survey will be conducted.

18. I hereby certify that the foregoing is true and correct
