17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

As per my telephone conversation w/Pete Chester on 05/08/91, Stevens Operating Corporation asked for a variance for surface pipe. We propose to run 400' ± of 8 5/8" 23# pipe instead of the 8 5/8" 24# pipe. This well is being drilled with Cable Tool Rig. The length of available 24# is too long for the Cable Tool Rig to run. The pipe is available in shorter length of 23#. We anticipate only low pressures at a setting depth of 400'. The 23# pipe will surface for this application.

18. I hereby certify that the foregoing is true and correct
