① This well has been shut in pending completion of requirements stipulated by OCD related to using the well as a disposal well. Those requirements included plugging other wells nearby + running a bond log on the nearby house state #1. We anticipate running that log next week. Other requirements related to nearby wells have been completed. Because this well is to be a disposal well, we request authority to continue having a pit at well site for safety purposes. \* Additionally, after the bond log on the house state is submitted to the OCD, it will witness a braden head + casing test before water injection begins.

#### 14. I hereby certify that the foregoing is true and correct
