

8. Ancillary Facilities:

A. None required.

9. Wellsite Layout:

A. Exhibit "A" shows the dimension of the well pad, reserve pits and proposed location of the tank battery.

10. Surface Restoration Plan:

A. After completion of drilling and/or completion operations all equipment and other materials not needed for operations will be removed. Pits will be filled and the location cleaned of all trash and junk to leave the wellsite in an aesthetically pleasing condition as possible.

B. Any unguarded pits containing fluids will be fenced until they are filled.

C. If the proposed well is non-productive, all rehabilitation and/or vegetation requirements of the BLM will be accomplished as expeditiously as possible. All pits will be filled and leveled within 90 days after abandonment.

11. Other Information:

A. See Cultural Resources Examination.

B. See Cultural Resources Examination.

C. Flora and Fauna: The vegetation cover consists of prairie grasses and mesquite. Wildlife in the area probably includes those typical of semi-arid desert land.

D. Ponds and Streams: None

E. Residences and Other Structures: None

F. Land Use: Grazing

G. Surface Ownership: BLM,

H. A Cultural Resources Examination for this location is included.

12. Operators Representative:

Phelps White
