

SURFACE USE PLAN

APPLICATION FOR PERMIT TO DRILL

Primero Operating, Inc.
Marbob Fed #1
330' FNL & 1650' FEL
Sec. 24, T11S, R27E

This plan is submitted with Form 3160-3, Application For Permit to Drill, covering the above captioned well. The purpose of this plan is to describe the location, the proposed construction activities and operations plan, the surface disturbance involved, and the rehabilitation of the surface after completion of the well so that an appraisal can be made of the environment effected by this well.

1. Existing Roads:

- A. Exhibit "B" is a map showing the existing roads to the proposed location.
- B. Directions: Go east of Roswell on HWY 380 approximately 19 miles. Turn south through cattle guard on Aleut road. Travel approximately 2 miles through cattle guard and turn east on Lenore road. Travel approximately 4 miles on road to location.

2. Planned access roads:

- A. Exhibit "C" shows the proposed road which goes south off of the existing road. The new road will be approximately 330' long. The existing roads will be upgraded as needed for drilling operations.
- B. Construction: Gradient on all roads will be less than 5% if needed roads will be surfaced with a minimum of 4" of caliche. Caliche will be obtained from a local source.
- C. No turnouts will be necessary.
- D. No Culverts are required.
- E. No Cuts or Fills will be required.
