13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Due to economic conditions, Yates Petroleum Corporation has been required to lay gathering lines and set allocation meters at each well that produces into a common line. We request approval to commingle the following wells.

Filaree AEL Federal #1, SW/SE, Sec. 33-T8S-R26E, Lease No. NM 29623

Filaree AEL Federal #2, NE/SW, Sec. 33-T8S-R26E, Lease No. NM 29623

Filaree AEL Federal Com #3, SW/NW, Sec. 33-T8S-R26E, Lease No. NM 29623, CA #NMNM88487

The Filaree AEL Federal #1, #2 and #3 wells are a base lease with only the Filaree AEL Federal Com #3 being communitized. The communitization agreement is attached.

The gas is measured prior to measurement for sales for marketing gas to Transwestern's Pipeline by check point meters. The sales point meter is located at the Filaree AEL Federal #1 well, located SW/SE, Section 33-T8S-R26E, Lease No. NM 29623. Transwestern's sales meter number is 12012.

Yates Petroleum Corporation conducts calibration tests on all sales point meters. Test results will be furnished to the Bureau of Land Management upon request.

Transwestern Pipeline Company conducts periodic tests on TW's meters and semi-annual gas analysis tests.

14. I hereby certify that the foregoing is true and correct
