13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Due to economic conditions with the gas purchaser, Yates Petroleum Corporation has been required to lay gathering lines and set allocation meters at each well that produces into a common line. We hereby respectfully request approval to commingle the following wells:

Powers OL Federal #8  
Geneva UI #3 (fee lease)  
Hewitt IM Federal #3

NWSE of Section 21-T6S-R25E, Chaves County, New Mexico  
SWNW of Section 21-T6S-R25E, Chaves County, New Mexico  
NWSW of Section 21-T6S-R25E, Chaves County, New Mexico

The gas is measured prior to measurement for sales for marketing gas to the pipeline company.

The sales point sets to the southwest of the Powers OL Federal #8. The meter sets along side of the Cottonwood Ranch Road in Chaves County, New Mexico.

Periodic calibration tests on all meters are done. Tests results will be furnished to the BLM upon request. Transwestern Pipeline Company conducts periodic tests on Transwestern's meters and semi-annual gas analysis tests.

14. I hereby certify that the foregoing is true and correct
