13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Due to economic conditions, the gas purchaser (Transwestern) required Yates to lay a gathering line from several wells to a central delivery point meter house, located at the Caudill RZ Com #4, located in the SWNE of Section 8-T6S-R26E, Chaves County, New Mexico. This well DOES NOT sell gas through the same meter. Yates Petroleum Corporation respectfully requests approval for off-lease sales and measurement and surface commingling of gas from the following wells:

Hancock AHC Com #2 (NMNM88497), NENW of Section 28-T6S-R26E, Chaves Co., NM (Fee Lease)
Buder ACN Federal #1 (NM-25866), NWNW of Section 22-T6S-R26E, Chaves Co., NM (Federal Lease)
Shadden TN #1 (Fee Lease), SWSW of Section 10-T6S-R26E, Chaves Co., NM
Andrew UU #1 (Fee Lease), SWNW of Section 10-T6S-R26E, Chaves Co., NM
O'Connell VX Federal Com #1 (NM061P3586C339), NWSE of Section 9-T6S-R26E, Chaves Co., NM

Each well has its' own allocation meter setting at the respective location. The meter number for the Andrew CDP that all of the above mentioned wells flow to is: 21920.

Periodic meter calibrations are done on all meters and will be furnished to the BLM upon request. Please see the attached map.
