OFF-LEASE MEASUREMENT 12-16-93

Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Well connected to pipeline for first production and sales. Due to economic conditions, Yates Petroleum Corporation, Operator, has been required to set allocation meter at the Cottonwood Federal #3 well, NWNE, Section 26-T6S-R25E, and lay gathering line to the sales point at the Cottonwood Federal #2, located SENE, Section 26-T6S-R25E. The measurement station number at the Cottonwood Federal #2 is no. 18140.

The gas is measured prior to measurement for sales for marketing gas to Transwestern Pipeline Company. Periodic calibration tests on all meters are done. Test results will be furnished to the BLM on request.

Yates Petroleum Corporation requests Bureau of Land Management approval to commingle the above gas.

14. I hereby certify that the foregoing is true and correct
