13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Due to the close proximity of rock to the surface of the location, McKay proposes to build the reserve pit by digging down to the rock then build the reserve pit above ground. We anticipate having to move approximately 1,000 yards of material to the location to complete this construction.

14. I hereby certify that the foregoing is true and correct
