☐ Conversion to Injection
☐ Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Yates Petroleum Corporation wishes to amend the surface use plan to include a 3" buried flowline from the Savage NI Federal #5 to the tank battery located on the Savage NI Federal #2 pad in the SWSE of Section 19, T6S-R26E. We propose the pipeline be laid approximately 10 feet east and south of the existing access road. This should be covered by archaeological report No. 94-SASI-088 S dated August 24, 1994.

14. I hereby certify that the foregoing is true and correct
