Re: Quincey "AMQ" State #9
G-12-T8S-R27E
Chaves Co., New Mexico
Order No. R-10349-A

Dear Mr. Stone;

Yates Petroleum Corporation respectfully requests approval to increase the maximum injection pressure on the Quincey "AMQ" State #9 from 437 psig to 900 psig. As demonstrated on the attached step rate test run on March 15, 2002, the proposed injection limit and corresponding rate under the maximum pressure and rate achieved on the step rate test. It should be noted that the parting pressure was never reached during the test due to equipment rate limitations.

Please call me at (505) 748-4182 if you have any questions.

Sincerely,

James W. Pringle
Engineer

JP/cm

xc: Tim Gum
