Vintage wants me to release their blanket bond. Only one well appears under the OGRID and it is for the Thompson Canyon Ranch well - 660' FSL and 1980' FEL S-31,T-4 South, R-23East. They said that they filed an Affidavit of Responsibility for this well converting it to a water well and I am faxing you what was faxed to me. Let me know if I can release the bond. Thanks.
