13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

McKay Oil Corporation proposes to construct a natural gas flow line from the Eppers "B" Fed. #1 to our existing gas gathering system, located approximately 500' south of the well location. The flow line will be constructed of 2" poly pipe and will be constructed on the surface due to surface constraints. The flow line will run along the west side of the access road to the location.

14. I hereby certify that the foregoing is true and correct
