

MULTI-POINT SURFACE USE AND OPERATIONS PLAN
EXCO RESOURCES, INC.
Rose Federal #15
1980' FNL & 660' FWL
Section 20, T05S-R25E
Chaves County, New Mexico

This plan is submitted with Form 3160-3, Application for Permit to Drill, covering the above described well. The purpose of this plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of the surface disturbance involved and the procedures to be followed in rehabilitating the surface after completion of the operations, so that a complete appraisal can be made of the environmental effect associated with the operations.

1. Existing Roads

Exhibit A is a portion of the BLM map showing the well, access route and existing roads in the vicinity of the proposed location. The proposed well site is located approximately 35 miles northeast of Roswell, New Mexico.

Directions, From Prices' truck stop 25 miles north on 285 to Dona Ana Road. East on Dona Ana Road for 21.1 miles to Eddy Road. Go .5 mile on Roosevelt road to Lease Road turn west for .9 mile to location.

2. Planned Access Road

The proposed new access will be approximately less than 100' in length and will lie in a north-south direction.

The new road's driving surface will be 14 feet in width and will be adequately drained to control runoff and soil erosion.

The new road will be bladed with drainage on one side. Traffic turnouts may be built.

The route of the road is visible.

Existing roads will be maintained in the same or better condition.

3. Location Of Existing Well

Exhibit D shows existing wells within a one-mile radius of the proposed well site.

4. Location Of Existing And Proposed Facilities

There are production facilities on this lease at the present time.

In the event that the well is productive, the necessary production facilities will be installed on the drilling pad.

5. Location And Type Of Water Supply

It is planned to drill the proposed well with a fresh water system. The water will be obtained from commercial sources and will be hauled to the location by truck over the existing and proposed roads as shown in exhibit A.

6. Source Of Construction Materials

Dirt contractor will locate closest pit and obtain any material and permits if needed for construction.
