

**MULTI-POINT SURFACE USE AND OPERATIONS PLAN**  
**YATES PETROLEUM CORPORATION**  
**Horn "YG" Federal Com. #8**  
**1980' FNL and 660' FEL**  
**Section 9-T8S-R26E**  
**Chaves County, New Mexico**

This plan is submitted with Form 3160-3, Application for Permit to Drill, covering the above described well. The purpose of this plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of the surface disturbance involved and the procedures to be followed in rehabilitating the surface after completion of the operations, so that a complete appraisal can be made of the environmental effect associated with the operations.

**1. EXISTING ROADS:**

Exhibit A is a portion of the BLM map showing the well and roads in the vicinity of the proposed location. The proposed well site is located approximately 18 miles northeast of Roswell, New Mexico and the access route to the location is indicated in red and green on Exhibit A.

**DIRECTIONS:**

Drive northeast of Roswell, on Hwy 70 approximately 14 miles to Aztec Road. Turn left, (north) on Aztec and drive approximately 3.4 miles to lease road on right (east) side. Turn right on road and drive to the Rita "TZ" Federal #2 location. Continue on road approximately 0.5 of a mile where the lease road is staked on the right (south) side going south approximately 1,076' to the Rita "TZ" #4 location. The access road is staked from the southeast corner of this location going south approximately 0.5 of a mile to the southeast corner of the well pad.

**2. PLANNED ACCESS ROAD:**

- A. The proposed new access will be approximately 2,637' in length from the point of origin to the southeast corner of the drilling pad.
- B. The new road will be 14 feet in width (driving surface) and will be adequately drained to control runoff and soil erosion.
- C. Existing roads will be maintained in the same or better condition.

**3. LOCATION OF EXISTING WELL:**

- A. There is drilling activity within a one-mile radius of the well site.
- B. Exhibit D shows existing wells within a one-mile radius of the proposed well site.

**4. LOCATION OF EXISTING AND/OR PROPOSED FACILITIES:**

- A. There are production facilities on this lease at the present time.
- B. In the event that the well is productive, the necessary production facilities will be installed on the drilling pad. If the well is productive oil, a gas or diesel self-contained unit will be used to provide the necessary power. No power will be required if the well is productive of gas.
