Santa Fe, New Mexico

July 8, 1948

Mr. Roy Harbrough
Oil Conservation Commission
Hobbs, New Mexico

Dear Roy:

RE: Griggs-Darden State No. 1,
NE/4 NE/4 11-4N-26E, De Baca

On June 17, 1948 Mr. W. Hawkins, P. O. Box 514, Fort Sumner, New Mexico, was informed by this office that it would be necessary to give a detailed account of work to plug the above captioned well. He had mailed his C-103 in with no description of the work and OK'd the plugging himself.

We asked him to get in touch with you so that you could witness or, at least, be advised of the plugging. We would appreciate your giving us a report on this well if you have any recent developments. His order, written under Case 101, gave him until March 1948 to complete the plugging of this well, and we feel that the matter has continued long enough.

Very truly yours,

Wick
