

April 25, 1958

O. P. Maschke, Trustee
P. O. Box 1832
Abilene, Texas

Dear Sir:

Am writing in regard to the well you have started to drill in De Baca County, N. M. located 1980 feet from the South line and 1981 feet from the West line of Section 14, Township 2 North, Range 28 East.

It is understood that you have already set surface casing on this well which is against all commission rules without an approved plugging bond. Also, your C-101 Notice of Intention to Drill has not been approved by this office. I am placing a sign on this well as of April 25, 1958, shutting down all operations until your plugging bond has been approved.

Under no circumstances are you to start operations on this well until you have authorization from this office.

Yours very truly,

OIL CONSERVATION COMMISSION

M. L. Armstrong,
Supervisor, District No. 2

MLA/jn

CC-Oil Conservation Commission, Santa Fe, N. M.

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The number of transformed cells was determined by the number of colonies obtained on the selective medium. The results are the mean of three independent experiments. Error bars represent the standard deviation.

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The second of these is the fact that the majority of the population of the United States is now living in the South and West. This is a result of the process of migration, which has been going on since the beginning of the 20th century. The third of these is the fact that the majority of the population of the United States is now living in the South and West. This is a result of the process of migration, which has been going on since the beginning of the 20th century.
