Drilling well. ☒

17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Drilling ahead at 1220 ft. The 8-5/8 casing mudded at 1081'; Top San Amdeas is 1088 ft.

Topped the (Davis Zone, Dolomite) at 1200 ft., out of it at 1220 ft. == Good porosity, No staining, no Florescence under lamp, No gas, No shows on the pit, acid test failed to show staining on samples.

Well is running 15 ft low to my State A, #1, one mile south& east of present location. Approximately 1000 ft of mud and water in hole; could not bail the water down below 600 ft in hole. Bailed clear salt water off bottom in the Dolomite. Took sample for examination, of Salt Water.

In the other well, there was a rat-ty zone imediately below the Davis Zone, carrying water. Now, propose to drill thru this rat-ty zone and run 7 inch pipe(M, dded,) for shut off of mud; and will then drill ahead.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.

SIGNED Daryl Davis TITLE Owner-Operator. DATE Sept 12, 1968.
