17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

**\* Instruct Callen Box 176**  
Notice of change of well operator from ~~James H. Goad~~ to Charles M. Goad, address as shown above. New drilling bond from Mr. Goad has been filed in Santa Fe on February 25, 1972. Work to commence on well home #1 immediately, work to be done is as follows:  
To circulate cement through and around to the surface of the third string **1010 FEET** of pipe of 8 5/8" OD, will notify Artesian office prior to cementing operations so that they may observe.  
Shall also pump cement in between first and second string of pipe and first string and hole.  
I will then replace and install new drilling line on cable-tool spool.  
We will then proceed to drill inside of 8 5/8" OD pipe, to a depth of no deeper than 2100 feet, and set new fourth string of 7" pipe as needed and whatever other additional string would be required for our drilling.  
If oil producing sand is located we will stop drilling and attempt to produce.  
If no oil zone is encountered we will cease drilling at the top of the Glorietta formation, which should be in the vicinity of 2000 feet.  
Please call Mr. Goad collect at 505-3784549 or 505-8426511 immediately when approval has been given on this request so that work mentioned here may commence immediately to conform with Case #4637, Order #R-4252.

13. I hereby certify that the information above is true and complete to the best of my knowledge and belief.

SIGNED Charles M. Goad TITLE Operator/1/8 interest DATE 2-25-72
