17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Standard Drilling Co. had dire need of the drilling rig that they had over our hole, they removed the rig to another one of their sites. As of the date of this report they are moving back over our hole a smaller rig which is adequate to do our job. The moving of the rig was done without my knowledge or consent. After legal consultation the work mentioned in this report is to commence immediately by Standard Drilling Co. April 20th, Hole has been drilled to a depth of 1,308 ft. Water in the hole was encountered at 1,185 ft. and has continued to increase from this zone making drilling prohibited without installing new string of pipe. In lieu of case number 4637, order R-4252 request is hereby made for permission to install new string of 7" OD -20 lb pipe to a depth of 1,307 ft. (1 ft. off bottom of hole). Shall also pump 50 sacks of cement down thru and up and around end of 7" string of pipe. Will allow to set 72 hours will then continue drilling. When approval has been given work to commence immediately.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
